

**The below examples would “count” as 30x30 successes.**  
**HCR2024 would discourage this kind of great collaborative conservation work.**

### **Private-Public Land Transfer Success Stories in AZ:**

**ET Ranch—Safford:** (LD14--Lupe Diaz, Gail Griffin, Dave Gowan; CD1--Tom O'Halleran):

The 640-acre ET Ranch west of Safford was purchased by the BLM in 2017. BLM made road improvements, installed a parking lot, and added signage and that property now ***provides a much needed gateway of access to approximately 32,000 acres of Santa Theresa and North Santa Theresa Wilderness*** areas for hunting, hiking and camping. The property was purchased with LWCF funds and the project was completed ***in partnership with the Southeastern Arizona Sportsman’s Club, National Wild Turkey Federation, Arizona Game & Fish Department*** and the Trust for Public Lands with support from many other local residents and outdoor recreation non-profits. The total value of the lost revenue from property taxes on the ET Ranch is ***less than \$100/year***.

**Doll Baby Ranch—Payson:** (LD6--Brenda Barton, Walt Blackman, Wendy Rogers; CD4--Paul Gosar):

The Doll Baby Ranch was purchased and transferred to the Tonto National Forest in 2019. This purchase ***provides public access to the Mazatzal Wilderness and Tonto National Forest***. There is now a public trailhead and parking lot providing access for hunting and hiking as well as access to Crackerjack Mine Road which is a very popular OHV destination. ***This access is used by thousands of outdoor recreationists every year***. Property taxes in 2018 on the Doll Baby Ranch were ***\$3100 and prior years significantly less***.

**Cold Springs Ranch--Payson** (LD6--Brenda Barton, Walt Blackman, Wendy Rogers; CD4--Paul Gosar):

Cold Springs Ranch was purchased by the Arizona Game and Fish Commission in 2019 with Heritage Funds for the conservation and protection of native species. The property has water rights to the Cold Spring (located within the property) in the amount of 200 acre ft. The land, water, and resources associated with the property provide the Department with opportunities to meet Heritage objectives for native species and habitats. The plan for the property is to develop ***a hatchery to reproduce and raise native trout and other native fish***. Improvements have included maintenance of the road, installing new fencing to prevent damage to habitat by cattle, and improvements to the irrigation system benefiting the riparian ecosystem and wildlife.

**Quigley-Achee Wilderness Area (aka Quigley Ponds/Tacna Marsh)—Yuma (LD13--Tim Dunn, Joanne Osborne, Sine Kerr; CD4--Paul Gosar)**

Quigley Ponds was purchased by the state and is managed by the Arizona Game and Fish Department in order to protect wetlands along the Gila River. It provides opportunities for wildlife watching and birding and small game hunting. In this example, HB2702 would get in the way of our own State Lands and Game and Fish Department's collaborative work.

**Cross F Ranch—Willcox (LD14--Lupe Diaz, Gail Griffin, Dave Gowan; CD1--Tom O'Halleran)**

The Cross F Ranch project opens up 40,000 acres of public lands for hunting access in an area north of Aravaipa Creek. The project is **supported by over 25 sportsmen groups including the Desert Bighorn Sheep Society, Arizona Game and Fish Department and Graham County, and makes strategic use of federal funding from the Land and Water Conservation Fund.** Potential lost tax revenue **\$1100/year.**

**The below examples would “count” as 30x30 successes.**

Tim Dunn, Joanne Osborne, Sine Kerr; CD4--Paul Gosar)**

Quigley Ponds was purchased by the state and is managed by the Arizona Game and Fish Department in order to protect wetlands along the Gila River. It provides opportunities for wildlife watching and birding and small game hunting. In this example, HB2702 would get in the way of our own State Lands and Game and Fish Department's collaborative work.

**Cross F Ranch—Willcox (LD14--Lupe Diaz, Gail Griffin, Dave Gowan; CD1--Tom  
O'Halleran)**

The Cross F Ranch project opens up 40,000 acres of public lands for hunting access in an area north of Aravaipa Creek. The project is ***supported by over 25 sportsmen groups including the Desert Bighorn Sheep Society, Arizona Game and Fish Department and Graham County, and makes strategic use of federal funding from the Land and Water Conservation Fund.*** Potential lost tax revenue **\$1100/year.**
